Horoscopes, tarot cards, magic, palmistry—these and other black arts are very real and exist in our everyday world. But how and why does black magic affect us? The Holy Qur’an continually mentions that humans are not the only intelligent beings on Earth or in the universe. Other beings do exist. These include Jinn, invisible beings that share the human qualities of intelligence and free will. But Jinn are created from fire. These beings, if good, leave humans alone and live for the pursuit of happiness. But when Jinn turn to the dark side, they can affect humans in very negative ways. When cooperating with evil human beings, Jinn can become the conduits of black magic. To fend these forces off, the only thing we need is the Holy Qur’an, or the “Cure.” Scholar and Islam researcher Moiz Ansari shows the relationship between good and evil in Islam and the Paranormal. By following these steps from the Holy Qur’an and advice from the prophet Mohammed, we can lead a better life.
