

Dear Atheist: If God Doesn't Exist, How is it Possible to be Aware of God's Nonexistence? This and Other Questions for the Atheist

Iâ€™m writing this book to challenge your lack of belief in a God. Throughout this book are several thought-provoking questions, such as, â€œHow are you even aware of there being no God if God isnâ€™t real? How can one think of something if that something is not in existence to be a something one thinks about? If you once had a belief that God exist, but now you reject that belief and have become an atheist, does this make God no longer real overall or just no longer real to you? This book is not to convince you to believe in any particular God. But rather, to show you the logic that there must be a God that exist in order for you to have the consciousness to choose not to believe there is one. After all, how can one be aware of something that has never, ever existed? This book is a quick read, but one that I believe has the potency to change your life!
