

PROPERTY+CASUALTY INSURANCE LI

****OBJECTIVES OF THIS COURSE :** Congratulations on your decision to become a part of the challenging property-casualty insurance industry. As an insurance professional, you will have broad responsibilities to your company, the industry, and the public that you will serve. This course will prepare you to begin these new responsibilities with confidence. You will learn about the principles underlying insurance and how the insurance industry operates. You will become familiar with all of the major categories of property-casualty products, the kinds of situations they are designed to cover, and the characteristics that make them unique. Of course, no one training program will tell you everything you'll ever want to know about insurance. Property-Casualty Concepts will give you the knowledge you need to take your first career steps and prepare you for the challenges and training opportunities that lie ahead.

*****LEARNING OBJECTIVES**

After completing Unit 1-Principles of Insurance, you will be able to do the following:

- Define risk and describe various methods used to manage risk;
- Explain the basic purpose of insurance;
- Describe how the law of large numbers is used by the insurance industry;
- Identify factors that determine whether a risk is insurable, including whether a risk is speculative or pure and whether insurable interest exists;
- Explain the difference between a peril and a hazard;
- Identify the different types of hazards
