

## China in Ten Words

From one of China's most acclaimed writers: a unique, intimate look at the Chinese experience over the last several decades. Framed by ten phrases common in the Chinese vernacular, *China in Ten Words* uses personal stories and astute analysis to reveal as never before the world's most populous yet oft-misunderstood nation. In *Disparity*, for example, Yu Hua illustrates the expanding gaps that separate citizens of the country. In *Copycat*, he depicts the escalating trend of piracy and imitation as a creative new form of revolutionary action. And in *Bamboozle*, he describes the increasingly brazen practices of trickery, fraud, and chicanery that are, he suggests, becoming a way of life at every level of society. Witty, insightful, and courageous, this is a refreshingly candid vision of the Chinese miracle and all of its consequences.
