

## David Humes Argument Against Miracles

In this book the author offers a critical analysis of David Humes argument against miracles from his Enquiry Concerning Human Understanding, Of Miracles is one of the most influential works written in defense of the position that belief in supernatural occurrences is not reasonable. Using Humes work as a point of departure, the author addresses the two most important epistemological questions asked about miracles: Is it ever reasonable to ascribe a divine source to an anomalous event in order to identify it as miraculous? and What theoretically entails sufficient evidence that a miracle has actually taken place? Contemporary rehabilitations of Humes argument, as put forth by Antony Flew, Alastair McKinnon, and Patrick Nowell-Smith, are evaluated. Contents: Defining the Miraculous; Humes Argument, Part 1; Humes Argument, Part 2; The Rationality of Belief and the Existence of God; Contemporary Rehabilitations of Humes Argument; and Miracles and Evidence.
