

A Worldview Approach to Ministry Among Muslim Women

Four years in the making, *A Worldview Approach to Ministry Among Muslim Women* is a ground-breaking exploration into the way culture and worldview affect ministry among Muslim women. Using original field research from eight different language and culture groups, the book explores a variety of ministries among Muslim women and provides tools to analyze their effectiveness. With contributions from scholars, field workers and agency administrators, readers are encouraged in a holistic Muslim ministry perspective through in-depth studies in Muslim beliefs, anthropological tools, worldview analyses, and explorations in strategic issues and discipleship. The book concludes with case studies and discussion questions to provide a comprehensive training manual for workers and students alike.
