Elizabeth Taylor (1856 - 1932) was a travel writer entranced by the Northern climes. Her visits to Iceland, Canada, Norway and, above all, the Faroe Islands, resulted in the essays contained in this book. Her original writings were passed around for year and eventually were given to her great-grandnephew who organized them and even visited some of the places Elizabeth wrote about. There are 39 articles from Elizabeths writings in this book along with letters she wrote and received from family and friends along the way.
