

The Great Household in Late Medieval England

Based on household accounts, and other related documents, Woolgar sheds light on life in some of the great English medieval houses (1200-1500). He examines routines, weekly and annual patterns of activities, observances of births, childhood, marriages, death and burial; from the mundane and routine (preparation and serving of meals, servant duties, furnishings, hygiene) to entertainment, travel, religious and intellectual life. A comprehensive, illustrated survey of life in a medieval house.
