

# Geek Romance: Stories of Love Amidst the Oddballs

Kristine Grayson’s™ twisted worldview shows itself in these five stories of love, geeks, and happily ever after. In “The Charming Way,” a nerdy Prince Charming falls in love with an Evil Stepmother. “Geeks Bearing Gifts” shows that even Greek Gods need computer dating services sometimes. “Name-calling,” the most “normal” story in the book focuses on a woman who won’t get married until she figures out what to do about her last name. “Knowing Jack,” and “Artistic License,” are a change of pace for Grayson’s™ not Greek Gods, but grifters in lighthearted romances set in the old West.
