WeeklyGraceful, even elegant, and always eloquent tribute to men at arms in a war that, in a way, never ended.---Kirkus Reviews James Brady has done it again. A riveting and illuminating insight into a dark corner of the world.---Tim Russert, NBC's Meet the Press Half a century after he fought there as a young lieutenant of Marines, James Brady returns to the brooding Korean ridgelines and mountains to sound taps for a generation. Its been fifteen years since Brady first wrote of Korea in *The Coldest War*, drawing raves from Walter Cronkite and *The New York Times*, which called it a superb personal memoir of the way it was. In the spring of 2003, Brady and Pulitzer Prize-winning combat photographer Eddie Adams flew in Black Hawk choppers and trekked the Demilitarized Zone where it meanders into North Korea, interviewing four-star generals and bunking in with tough U.S. recon troops, in Bradys words, raw meat on the point of a sharpened stick. Brady recalls that first time on bloody Hill 749, the men who died there, what happened to the Marines who lived to make it home, and experiences yet again the emotional pull of a lifelong love affair with the Corps in which they all served. Brady summons up the past and illuminates the present, be it the Korea of the forgotten war, the Yanks who fought there long ago, or today's

soldiers standing wary sentinel over the scariest place in the world. The result is uplifting, inspiring, often heartbreaking, and this new Brady memoir proves as powerful as his first.
