

PsychoBabble: The Failure of Modern Psychology--and the Biblical Alternative

Why is it many evangelical preachers shout from the pulpit about Gods power, but they shuffle their emotionally troubled members off to the closest therapist? Both church leaders and laypersons seem to believe that the psychological experts have the answers for the wounded hearts and souls of Gods people. And when churches do offer counseling, it often is tinged with the secular psychology and psychotherapy that have infiltrated the church. Psychobabble explains the dichotomy between secular and Biblical counseling and shows the danger of incorporating secular techniques into a Christian approach. This book will arm believers looking for Scriptural answers to the hurts of a broken world. As anti-Christian bias becomes increasingly pervasive in secular psychology, the church must look to the true source of all healing. This book will point the way. Dr. Ganz threads through all the sticky issues as he confronts the psychological demigods of the Christian integrationists pantheon and exposes their feet of clay. For those who have wondered whether the integration of secular psychotherapy with the revelation of God in the Bible is possible--here is your answer. --Dr. Jay Adams, professor, Westminster Theological Seminary Here is a solid Biblical approach to counseling from somebody who has seen it from both the psychological and Biblical sides. Anyone who does Biblical counseling should read this book. --Dr. John F. MacArthur, Jr., pastor, author of

Ashamed of the Gospel A vivid book by a Bible-believing Jewish-Christian ex-psychotherapist, full of precious wisdom as to how Gods power transforms troubled lives. --Dr. J. I. Packer, Professor of Theology, Regents College At a time when much of the modern church seems to have replaced repentance with recovery, sanctification with serenity, and piety with therapy, Psychobabble is especially welcome--and needed. I pray that it will receive a wide reading. --George Grant, author, Executive Director, Legacy Communications
