Lily the holiday fairy is given a new assignment this Christmas seasonâ€”teach a lonely doctor how to love again. But this presents a major challenge. Lily gently coerces people how to embrace the Christmas spirit every year. She doesn't have a clue what love really is. The holidays are always depressing for Tim Killian after losing his beloved parents in a terrible car crash. With no family to celebrate with, he throws himself into his medical practice to forget the pain, at least for a little while. When he literally runs into a gorgeous redhead one evening and knocks her to the ground, heâ€™s struck dumb by her beauty. And when the very same sexy woman comes into his office the next day seeking medical attention, heâ€™s more than interested in his newâ€”but oddâ€”patient. Soon Tim finds himself involved with the mysterious Lily, but so many things about her donâ€™t add up. Is she what she seems? And does he really want to fall in love with a woman he knows absolutely nothing about? Oh yes, he doesâ€” 23,000 words This novella was previously published and the current edition has been extensively revised.
