

Quality Research Papers: For Students of Religion and Theology

This updated third edition of Quality Research Papersâ€™ fast becoming a standard reference textbook for writing research papers in the fields of religion and theologyâ€™ gives improvements and added material for such things as the expanding field of online research and doing church-related research in a professional manner. Because so many new developments have taken place in the field of research, especially in terms of electronic research, this handy reference explores the ways to do research on the internet, including how to document such research. Quality Research Papers offers great opportunities to students today, especially in distant learning situations, to determine which resources can be used and which should be rejected. For this reason Nancy Vyhmeister brought in Terry Robertson, Seminary Librarian at Andrews University and professor of the seminary masterâ€™s level research courses. His expertise in library, computers, and the Internet are invaluable to the book. In addition to substantial, current information on electronic resources and online research, this third edition preserves all of the features of the original editions, now presented in a newly revised, more logical order.
