

# The Gnostic Gospels: What the Church didnt want you to know

I wrote this book because I was totally fascinated by the historical fact that the Catholic Church tried so hard to remove this information from human history and I found it to be bizarre for two main reasons. One they where believed to be part of the Bible and Two the Church officially claimed, that they where false and beyond the understanding of the layman. This made no sense to me as if in fact they are false then why remove them from history by destroying all copies and killing those who where in possession of them, and secondly why would it matter if layman could understand them are not if again the where false. I believe that Information should never be censored by anyone are any organization weather religious in nature are governmental. That is why I wrote this book!
