

Cyberlaw: The Law of the Internet and Information Technology

Featuring the most current exploration of cyberlaw, CYBERLAW helps students understand the legal and policy issues associated with the Internet. Tackling a full range of legal topics, it includes discussion of jurisdiction, intellectual property, contracts, taxation, torts, computer crimes, online speech, defamation and privacy. Chapters include recent, relevant cases, discussion questions and exercises at the end of each chapter. Using a consistent voice and clear explanations, the author covers the latest developments in cyberlaw—from cases to legislation to regulations.
