

Otto Jespersen: Facets of his Life and Work (Studies in the History of the Language Sciences)

This is the first book to give a comprehensive view of the work of Otto Jespersen (1860-1943), the Danish linguist who is perhaps best known for his monumental work *A Modern English Grammar on Historical Principles*. The articles in this volume show the wide range of Jespersen's interests and discuss the influence of his contribution to the study of language.
