

# THE GODLESS GOD!...: The Evil That God Does!

This book reveals a logical description, and a rational depiction of world suffering and pain. It has been said by the religious, that such a world had been devised in order to inflict upon humanity, and all living things a penance for sinfulness. What is the purpose for the creation of sin, oh God? Why? Nine million children die each year under the age of five around this world, from devastating bacteriological diseases, unimaginable destructive viral infections, migrating pathogens, genetic mutation, deformation, and tumultuous climatic disruption. Would an anthropomorphologically intervening Deity devise such an unparalleled hellish world as this; and then, demand to suggest to the religious fundamentalist in scriptural attestation, that there is another unimaginable, unbearable hell beyond this one? But, he loves us, and his creatures, creations, and mankind? Sinfulness? The fallen man syndrome? These are illogical religious precepts and postulations. No intelligent, educated, and thinking person, could ever accept such an illogical assumption as this....None! God if existing, is beyond the intellectual wherewithal, cognitive capacity, mental acuity, and comprehensive auspices of mankind to discern. No man knows anything about God or his word; and, no man holds the keys to heaven and hell.
