

Compliance with CDM Regulations: What All Designers Should Know (Hawksmere Report)

A thorough understanding of the CDM Regulations is essential for anyone involved in the construction process, whether they are client, consultant, contractor or supplier. This Report represents a definitive statement of best practice methods to ensure that designers comply with the Construction (Design and Management) Regulations 1994. It is essential reading for anyone who prepares a design or who arranges for someone under his or her control to prepare a design relating to a structure or part of a structure.
