

MIDLIFE METAMORPHOSIS: How To Renew Your Life When You are Halfway Down The Road

Its Never Too Late To Find Your Calling or Follow Your Dream Millions of middle-aged men and women settle for a mere existence of "comfortable misery" simply because they have been conditioned to think that its too late to accomplish anything significant in their lives. Were placated with mental, emotional, and physical pleasures to keep us sedately occupied while we slog through 40 plus years of drudgery, which we call employment, with the hope of "retirement" as the dangling carrot to keep us on the leash.

Personal Transformation Is Possible If the scenario above describes your life, it doesnt have to stay that way. I fit into this mold for decades until I realized that I was the only one who could change my circumstances. Yes, it will take some changes in your personal mindset, discipline, and habits. Yes, it will require a commitment so strong that it will overcome the old conformity that will be screaming inside you to give up. Yes, you will face setbacks and challenges which will temporarily blind-side you. Yes, you may have to get up early, stay up late, and forgo some things in life youre accustomed to doing. But, if your dream is strong enough, IT IS POSSIBLE.

Personal Transformation Is Simple Changing your circumstances in life is not complicated. Basically, it can be reduced to a simple three step process. MIDLIFE METAMORPHOSIS will show you how to utilize these three steps to find your calling and accomplish your goals in life:

Education Knowledge of who you really are as a person: your Passions, Potential, and Personality (your 3Ps)
Understanding of why you are where you are now and what needs to be done to get where you want to be
Wisdom to align your 3Ps with matching opportunities
Action - Putting what you have learned into practice
Motivation “ Staying motivated is probably the most important part of this whole process. Obtaining knowledge is as easy as doing an internet search. Putting your newly found knowledge into practice is just a matter of putting together and plan and doing it. Motivation, on the other hand, enables you to stay in the game, even when winning seems hopeless. There Is Hope
MIDLIFE METAMORPHOSIS will take you through each of these components of personal transformation and help you to change your direction in life.
