

Saint John Chrysostom: Eight Homilies Against the Jews

While in their writings Hilary and Eusebius introduced the pagan world to this strange version of Jewish history, Chrysostom expressed similar theories with much greater violence from his pulpit at Antioch. In eight sermons which he delivered in 387 he speaks with a bitterness and lack of restraint unusual even in that place and century {PG Vol 97). If it were not for the exegetical background which has already been shown, it would be impossible to explain, let alone excuse, his tone. Christianity was no longer in any danger. He himself had not, like Athanasius, ever known any persecution from the Jews, and the period of trial under Julian had been very short. Even had they been a menace in old times, the rich and powerful Jewish community of Antioch was now hemmed in, like every other, by numerous imperial edicts issued under Christian inspiration. Moreover, Chrysostom was a man whose character excited the admiration of his contemporaries. If he was hated by politicians for his unswerving firmness, he was loved by the multitudes, and his commentaries on the gospels are still read and studied in the Orthodox Church because of their deep spiritual beauty.
