

What Handwriting Indicates; An Analytical Graphology

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1904 edition. Excerpt: ... IV LINES THE authors endeavor is to restrict the use of a few certain words in this book to one meaning each. The word line is one of them. It refers, unless the context indicates otherwise, to the imaginary line, more or less straight, at the base of the letters and on which the letters are supposed to rest. In judging of the direction or contour of lines, their conformation is more easily seen if observed from the left side of the sheet. It is perhaps unnecessary to state again that preferably the specimen for examination should be on unruled paper. If ruled paper has been used, no deductions had best be made from the lines unless the writer has totally disregarded the ruling. At best, too much dependence cannot be placed on the lines, especially if they are very straight and spaced with exactness, for persons have been known to use heavy guide lines beneath their note-paper, and in some cases even a ruler is placed on the sheet. Illustration 3 5 B was written with the aid of a ruler, and note how absolutely straight are the base lines; note how the lower loops of the fs and the tails of the ys were added after the ruler had been removed, and how Wednesday, as an afterthought, was written without careful readjustment of the implement. In general, however,

straight lines (35 A) indicate straightforwardness and irregular ones deviousness (37); and by deviousness is not necessarily meant dishonesty, but merely lack of straightforwardness. Many persons, lacking the directness of bolder ones, are conscientious, but also circumvolant in method. The old saying that ascending writing is the sign of coming wealth may contain a grain of truth, for when the lines ascend as the hand moves across the page (40) it denotes Buoyancy, the twin...
