In writing this book it is not my intent to upset the beliefs and practices of my colleagues. They do a wonderful work in providing a needed service to thousands of people who need counseling and direction in their life - others truly do have chemical imbalances that can only be handled by professionals in the mental health field. Whether they deal with cognitive issues or behavior patterns of disruption in their lives - these problems have to be dealt with by all of us - Christian, psychologists, or secular; we must all do our best to minister to the mentally ill. End-time events are presented and explained in a manner that you will understand. Exciting and amazing insight into Gods plan for us. Dr. Weathers devotion to study and sharing with others is well above average. You will feel the strength and wisdom in each section of this book. You will be excited to share with others what you have just discovered through this person,
