

Immortal Ops: Collection I

Immortal Ops (Immortal Ops I): A Captain Lukian Vlakhusha is having issues with his newest target, Peren Matthews. Something about her has left him staring at her picture and wondering what it would be like to touch her soft skin. When the time comes for the team to strike, Lukian senses danger and aborts the mission. He makes an attempt at meeting Peren and is set in his place by an independent young woman who knows what she is, and isn't, looking for in a man. Lukian is having trouble telling Peren that he's what she fears most, a werewolf. Can they make the passion that burns between them last, or will Lukian's condition be too much for Peren?

Critical Intelligence (Immortal Ops II): When loyalties are questioned and bonds forged, the I-Ops find themselves fighting a war to guard not only their secrets but their lives as well. Missy Carter leads a rather boring, overworked life as a system analyst for the State Department or rather, that's what she lets everyone believe. No, in reality her life is anything but boring. As an agent with the Paranormal Security and Intelligence, she's seen and done it all. Intelligence is her specialty, assassination is her hobby. The only problem is that the things she spies on don't die easily. In fact, some of them were dead to begin with. She's learned to handle anything life can throw at her. That is until the biggest paramilitary pain her ass shows up again. Lucky for him, he's sexy. Roi Majors, second in command of the I-Ops, is having a hard time believing that Intel

can only get half the information needed to bring down an underground ring of vampires with big spending backers who are hell bent on creating a race of supernaturals with multiple strands of DNA in them. As the team searches for answers, Roi searches for sexual release. When he finds himself paired with the one woman in the world who seems immune to his self-proclaimed charms, he can't wait to see her to safety and then bid her good riddance. He never counted on falling in love with her. And he sure in the hell never counted on her claiming to be an agent with a branch of the government no human should know about. This novel contains adult content and is intended for mature audiences only. Must be 18 years or older to read.
