

An Islamic Perspective on Legislation for Women Part II

This series, An Islamic Perspective on the Legislation for Women, is a call for both Muslims and non-Muslims to discover the priceless jewels of Islamic legislation towards women. The series discusses a number of issues and clears up misconceptions that are of great benefit to the Muslim women life regarding rights and duties, engagement, marriage, polygamy, divorce, veil, etc. Its true that some of these subjects have been tackled before by many authors, but what makes this series special is that the author, as a woman, will be better understanding and experienced regarding womens concerns and sensitive issues
