

Be Reasonable! How Community Associations Can Enforce Rules Without Antagonizing Residents, Going to Court, or Starting World War III

Community associations enforce rules and restrictions to ensure a high quality of life for residents and to preserve property values - not to harass residents. Rules are there to prevent homeowners from painting their houses pink or storing washing machines in their yards - but those same rules should not become overzealous or inflexible. *Be Reasonable* shows you how to write and enforce rules that won't get your association in trouble and won't cause residents to hold recall elections. *Be Reasonable* is a compendium of expert opinions from over 30 leading community association attorneys, managers and directors combined with information from *CAI's* award-winning magazine *Common Ground*. You'll learn effective strategies for drafting and enacting reasonable rules, identifying unreasonable rules and restrictions and working with owners. You'll also find out more about reasonable enforcement procedures -- from making exceptions to providing due process. Practical applications are illustrations through discussion of court cases and real-life controversies. Some of the topics covered in *Be Reasonable* include:

- * Writing Reasonable Rules
- * Understanding Rules and Restrictions
- * Reasonable Enforcement Strategies
- * Mediating Disputes
- * Levying Fines
- * Controversial Rules and Restrictions
- * Children
- * Holiday Decorations
- * Satellite Dishes
- * Vehicles
- * Eliminating Unreasonable Rules
