

# Egypt: An Extraterrestrial And Time Traveler Experiment

This book is a sequel to Dr. Goldbergs Time Travelers from Our Future, and depicts the significance of Hermes, the very first time traveler, on both Egypts development and our planets heritage. According to Dr. Goldbergs case histories and research, Egypt developed from four sources: Lemuria(Mu), Atlantis, ETs and time travelers. One of the most dramatic chapters deals with Hermes role as Moses advisor and rewrites the history of the Exodus by demonstrating that the original jewish people were Egyptians! Archeological and historical evidence are presented to support this argument. Several self-hypnosis exercises are presented to guide the reader into their own past lives, out-of-body travel and training them to contact these time travelers.
