

Muslim Mothering: Local and Global Histories, Theories, and Practices

Muslim Mothering is an interdisciplinary volume, concentrating on the experiences of Muslim mothers, largely in the contemporary period. The volume is notable for the global range of its contributors and topics, indicative of the number of Muslim majority national contexts and large and diverse Muslim diaspora of today's world. While motherhood is highly valued in the sacred texts of Islam, the lived reality of Muslim mothers demonstrates that their lives do not often conform with traditional religious paradigms. With ongoing turbulence in the Middle East and subcontinent, many Muslim mothers face the difficulties of rearing children amongst frequent bombings and episodes of violence. Muslim mothers living in the diaspora face other challenges, such as the difficulty of fostering positive Muslim identity as a minority and in a context of Islamophobia. This collection demonstrates the diverse and complex ways that Muslim mothers define and redefine the resources of Islam to negotiate better situations for themselves and their children, revealing how religious identity is a dynamic and vital force in their everyday lives.
