

Islam Plain and Simple: Women, Terrorism and Other Controversial Topics

A straight forward and highly readable book on the fundamentals of Islam. -- Eboo Patel, Adviser to the White House
In Islam Plain and Simple, author Tariq Jalil explores the basic beliefs of Islam as well as its most controversial topics. In this highly accessible introduction, Mr. Jalil expounds upon the basis of Muslim ethics and spirituality practiced by over 1.6 billion people. With an eye toward common misconceptions held by observers in the West, and to the sometimes troubling inheritance in Muslim countries, he has woven together a well-researched narrative that challenges both stereotypes and even some practices in the Muslim world itself. Mr. Jalil's perspective and depth of understanding is invaluable for enhancing understanding and providing a dialogue for many years to come.
