

Travels of a BMW (British Muslim Woman)

This is a story from a girl who has always wanted to experience life in full but was never really allowed to. She is a first generation Muslim girl living in the UK. She is a practising Muslim who adheres to the five pillars of Islam. She studied hard, worked hard, bought her first home and her beloved Citroen Saxo. Her life took a jolt when she reached 36, as she found that she owed someone a coffee. Apparently he had done some work as a favour for her a year earlier and told her she owed him a coffee for it. This is her story and experiences. Here she outlines her first few travels through life.
