

Faith in Faithlessness: An Anthology of Atheism

With the rise of religious fundamentalism worldwide, express disbelief in God(s) has become a taboo. In the last few years, however, atheism has witnessed a resurgence. This book contributes to the reassertion of "godlessness" as a philosophical and moral stance. Part One includes historic defenses of atheism (from Baron d'Holbach, Feuerbach, Nietzsche, Marx, Emma Goldman, Bakunin, Paine, Russell, and Freud), while contributions from contemporary nonbelievers from the political and arts communities make up Part Two. Andrea Levy has published widely on the ecology and peace movements. Dimitri Roussopoulos is an author and editor whose most recent work documents the New Left.
