Magnificent Midlife - How to make the second part of your life totally inspiring by Trypheyne McShane. Negotiating midlife and beyond in a way that opens up one's innate magnificence has become very important to women over the last few years, as they realise that, rather than an ending, this is the start of a brand new life. In this illustrated guide you'll learn to embrace the inevitable aspects of midlife and turn them to your advantage in simple and inspirational ways. You'll discover how to be excited by life all over again, how to make your emotions work for you, how to gain rapport with your mate and share and get the support you deserve. Understanding what midlife is and how it works, you can then find joy, passion, love and adventure, learn to feel sexy again, and finally follow your true life purpose... And much more... We Wise Women are publishing The Intimacy of Living series to provide support to women across a number of different areas of experiences that they may well deal with at midlife and beyond. This is the first in the series and can be built on to by purchasing those other specific books that are relevant to your needs. This is a great guide for all women who understand that they have so much more to gain from, and give to, life and their time is NOW. There is no better time than now to do yourself a favour and Make your Midlife Magnificent. Please be kind and review after reading.
