

# The NIR Difference: National International Roofing

In a world with rising costs and soaring fuel prices, proper building maintenance has never been so practical. While the roof tends to be an out-of-sight, out-of-mind building matter, it certainly becomes a costly venture when it begins to leak and ultimately needs to be replaced. However, NIR has proven proper care of your roof system will result in a reduction of leak occurrences and more importantly, a larger ROI. Our data going back to 1987 shows that an NIR RoofTop Maintenance Service Agreement:

Reduces annual roof spending by 20%  
Increases the roof life up to 12 additional years (avg. roof life is 17.5 years)  
Mitigates leak occurrences by 72%  
Prevents premature roof replacement  
Provides accurate budgeting for future roofing needs  
How is this achieved? Well, NIR figured out over 25-years ago that by having the same properly trained professional inspect and repair minor issues on the roof on a regularly scheduled basis, this is what would result. By way of a fully equipped Mobile Service Unit, an assigned Certified Roof Care Specialist has the tools, equipment and professional knowledge to effectively care for your roof. Your roof is money, so protect it!
