

# Lets Discover Israel

Offer young children an exciting and age-appropriate introduction to the Jewish homeland with these eight colorful and charming 4-page folders. Lively text and photographs teach core concepts about our biblical and modern ties with Israel, the country's major cities, and the diversity of Israel's people and geography. Students learn Hebrew words such as Eretz Yisrael (the Land of Israel), Shalom (Hello, Goodbye and Peace), and Magen David (Shield of David or Jewish Star), and gain a basic understanding of core Jewish values, including Ahavat Tzion (Love of Israel), Bal Tashhit (Conservation), and Shalom Bayit (Peace in the Home). The booklets include more than 100 full-color photographs and playful illustrations, and an array of creative activities and questions that stimulate critical thinking and help students make meaning of what they learn. For example, students are asked to imagine what it might be like to start a new school and learn a new language as a new immigrant in Israel, and they respond to the question, What might be some differences between the city of Haifa and a farm in the Galilee?

**FOLDER TITLES:** Our Homeland, Modern Israel, Jerusalem, Tel Aviv, Northern Israel, Southern Israel, Israeli Kids, Israeli Food. A family-oriented activity at the end of each folder encourages students to share their Israel experience at home.
