

Curing the God Plague & The Grand Deception: Double Pack

With this you will receive two books at \$1 off! In this pack is The Grand Deception and Curing the God Plague- over 400 pages of writing and arguments, packed into one large book! These books cover most of the atheistic arguments compiled into one package. The Grand Deception has sold well over a thousand copies, and is still going strong! It offers common refutes to many theistic arguments, including creationism, Intelligent Design, Fine Tuning, and so much more...

Reviews of the Grand Deception: The Grand Deception has easy to understand, yet sophisticated, prose that aptly demonstrates the folly that is organized religion. It is a well-researched work that tackles the arguments for religion, and refutes them accordingly in a concise and thorough manner. I liked the way the author presented his opinions in a concise very easy way to follow his thinking. And as a result-made me able to make up my own mind concerning the subjects. Love reading about Religion and this book popped up on Kindle books so I took a chance, ordered it and couldnt put my kindle down.....amazing book!!! Curing the God Plague furthers the discussion by pushing the envelope further as it delves into the psychology of belief, and the various dilemmas that come with such delusional and whimsical beliefs in any god. These books are meant to inspire and invoke a process of thought that causes you to question everything you have been told. Belief and religion are completely unnecessary nuances within life as they attempt to

create moral beings, yet only succeed in creating a pseudo-moralistic race that relies upon false beliefs and borrowed values. Read on in these books as we question the beliefs surrounding many of the modern religions, and the superstitions accompanying each. Is it logical to believe that a talking snake and free will is the cause of all suffering in the world today? Is God justified in his actions as he commits and endorses genocide throughout the Bible? Does God exist?
