

Hospital & Healthcare Facility Operation & Maintenance

A primer for non-clinical maintenance and operational staff members of hospitals and healthcare facilities this book is directed towards the prevention of nosocomial disease and accidents through instruction of proper hygiene, sterilization, chemical and gas storage and administration, air filtration and purification, construction procedures, interior design, furniture selection and Joint Commission inspections. Used for training purposes by some of the largest hospitals and trade unions in the United States it is an excellent stand alone text covering topics vital to the safety of patients and staff within healthcare facilities.
