

Indiscretion: Finitude and the Naming of God (Religion and Postmodernism)

How can one think and name an inconceivable and ineffable God? Christian mystics have approached the problem by speaking of God using negative language—devices such as grammatical negation and the rhetoric of darkness or unknowing—and their efforts have fascinated contemporary scholars. In this strikingly original work, Thomas A. Carlson reinterprets premodern approaches to God's ineffability and postmodern approaches to the mystery of the human subject in light of one another. The recent interest in mystical theological traditions, Carlson argues, is best understood in relation to contemporary philosophy's emphasis on the idea of human finitude and mortality. Combining both historical research in theology (from Pseudo-Dionysius to Aquinas to Eckhart) and contemporary philosophical analysis (from Hegel and Nietzsche to Heidegger, Derrida, and Marion), *Indiscretion* will interest philosophers, theologians, and other scholars concerned with the possibilities and limits of language surrounding both God and human subjectivity.
