

# The Lean Primer: Solutions for the Job Shop

The Lean Primer will allow you to train the organization to understand how critical the implementation of Lean principles and processes are to your short and long term success. It will provide the various reasons why an organization must go Lean, as well as detailing what Lean is. Lean will be explained in the terms of Stabilize, Flow, and Sustain with reference to the following topics of lean vision, waste, value stream mapping, 5S, takt time, buffer and safety stock, continuous flow, standard work, quick changeover, kanban, visual controls, mistake-proofing, leveling, paced withdrawal, visual production control, runners, TPM, and kaizen. Each of these tools will also be explained with digital photos from world-class shops from across the US that shared their best practices.
