

## The French House: A quirky and inspiring memoir about turning a ruin into a home

On a tiny French island, a couple of American dreamers redefine their lives by restoring a ruin...The French House moves to a soulful, very funny rhythm all its own.-Meryl Streep Don and Mindy Wallace have always been Francophiles, so when they had the opportunity to buy a home on a small French island off the coast of Brittany, they jumped-sight unseen-into a crumbling mess that challenged their finances and their family. But when the Wallaces arrived on the island they found a building in ruin, and it wasn't long before their lives resembled it. Plagued by emergency repairs, a stock market crash, and very exasperated French neighbors, Don and Mindy could have accepted their fate. Instead, they embraced it. Redolent with the beauty and flavors of French country life, The French House is a lively, inspiring, and irresistibly charming memoir. Fans of Under the Tuscan Sun (Frances Mayes), Paris in Love (Eloisa James), and A Year in Provence (Peter Mayle) will be enchanted by this account of a family that rises from the rubble, wins the hearts of a historic village, and finally finds the home they've been seeking off the wild coast of France. What readers are saying about The French HouseThe French House is engaging and well-written and will make even non-Francophiles yearn for a trip to France. With hauntingly beautiful descriptions of a tiny French island and its inhabitants, this book will take you to a different place, and might even inspire you to reconsider your life and finally
