

The Bayquniyyah Poem: An Introduction to the Science of Hadith

This book is taken from a larger forthcoming publication on the science of hadith, and was initially used for a short course held in the blessed month of Ramadan 2015. Due to the interest expressed by a number of students and teachers it was thought beneficial to release this early draft which can be utilised in a classroom setting. This work consists of an abridged translation of Shaykh Hasan al-Mashatâ€™s commentary on the Bayquniyyah poem, interspersed with diagrams created by the translator to facilitate understanding of the concepts covered in the text. In addition, further reading is provided in the appendices which students may find beneficial.
