

Rights of Muslim Women

According to Islam, there is a specific sex individuality in man and woman which they must preserve and cherish, because it is this individuality which gives them honour and dignity and enables them to fulfill in an effective manner their specific role in society. Where this specific sex individuality, instead of being regarded as a source of honour and dignity is sought to be pulled and effaced, as if it involved an inferiority in men or women, it produces a dead and colourless equality which is, in effect, a denial of real equality, as it makes for less differentiation and, therefore, for less progress.
