

# Hadith Nomenclature Primers

This volume presents two primers on the discipline of hadith nomenclature (mustalah al-hadith) and the authentication of transmitted reports. They are *Nukhbat al-fikar* (Chosen Thoughts on the Nomenclature of Hadith Experts) by Ibn Hajar al-Asqalani (773-835AH); and *Al-Tadhkirah* (The Memorandum) by Ibn al-Mulaqqin (723-804AH).

These primers were written to facilitate speedy mastery of the disciplines core material. Although the primers focus on definitions, they also include methods for addressing problems specific to the topic. Students would often commit a primer to memory while studying it with a living master who would explain its content in detail and demonstrate its application. It is through this interaction between students and instructors that Islamic education transmits both knowledge and skills across generations. In translation, these primers are ideal for English-speaking instructors looking for a primary text covering the subjects core concepts. The translations will also benefit students looking to review their lessons or to prepare themselves for more advanced studies.
