

Financing Education in a Climate of Change (12th Edition)

This new edition of the classic text in the field of school finance retains the practical tone and superior presentation that made the previous editions best sellers, while presenting the most up-to-date information and material available on key subjects. Here readers get a firm, balanced look of all facets of financing education, clarified and reinforced through numerous clear tables, figures, and key concept lists, and a tone and presentation that illustrates even the most difficult concepts. The new Twelfth Edition of Financing Education in a Climate of Change includes information on hot button topics such as the economics of education, recent court decisions, 50-state comparison tables, the Common Core State Standards, and the ongoing debate about school vouchers, tax credits, and charter schools.
