

# A Guide to the I Ching

Used by its readers as an oracle, this book, based on the terminology used in the classic Wilhelm/Baynes translation, puts the I Ching into modern language. This allows its wisdom to be applied to the situations of everyday life. Decoded are words such as the superior and inferior man, and the inferiors, which refer respectively to the true self, the ego, and the bodily self. Expressions such as crossing the great water and seeing the great man are seen to mean getting past the danger of giving up on oneself, and remembering the potential for good in every person. Understanding such words and phrases occurs in the context of the readers following his/her innermost feelings, since it is these that bring one into harmony with the ever-loving Cosmos and its protective powers.
