Dont F With Me During Avocado Season! --The Honey Badger
This is the honey badger. Watch it run in slow motion. Its pretty badass. Look. It runs all over the place. Whoa! Watch out! says that bird. Eew, its got a snake! Oh! Its chasing a jackal! Oh my gosh! Oh, the honey badger is just crazy! The honey badger has been referred to by the Guinness Book of World Records as the most fearless animal in the animal kingdom. It really doesnt give a shit. If its hungry, its hungry. Eew! Whats that in its mouth? Oh, its got a cobra? Oh, it runs backwards? Now watch this: look a snakes up in the tree. Honey badger dont care. It just takes what it wants. Whenever its hungry it just -- Eew, and it eats, snakes... Watch it dig! Look at that digging. The honey badger is really pretty badass. It has no regard for any other animal whatsoever. Look at him, hes just grunting, and eating snakes. Eew! Whats that? A mouse? Oh thats nasty. Theyre so nasty. Oh look its chasing things and eating them. The honey badgers have a fairly long body, but a distinctly thickset broad shoulders, and, you know, their skin is loose, allowing them to move about freely, and they twist around. Now look: Heres a house full of bees. Do you think the honey badger cares? It doesnt give a shit, it goes right into the house of bees to get some larvae. How disgusting is that? It eats larvae. Eew, thats so nasty. But look! The honey badger doesnt care! Its getting stung like a thousand times. It doesnt give a shit. Its just hungry. It doesnt care

about being stung by bees. Nothing can stop the honey badger when its hungry. What a crazy fuck! Look, its eating larvae, thats disgusting. Its running in slow-motion again. See? Now, whats interesting is that other animals like these birds here, they just wait around until the honey badger is done eating, and then it swoops in to pick up the scraps. It says, You do all the work for us, honey badger, and well just eat whatever you find, hows that? Whatdaya say, stupid?

Look at this bird: Thanks for the treat, stupid! Hey, come back here, says the honey badger.

Birds dont care, and you know what? The jackals do it too. Look at these little dogs. Theyre like Thanks stupid! Thanks for the mouse! See you later. The honey badger does all the work and all these other animals just pick up the scraps. At nighttime the

honey badger goes hunting, because its hungry. Look! Here comes a fierce battle between a king cobra and a honey badger. I wonder what will happen?

Look at this, theres the honey badger just eating a mouse, and then look, Get away from me! says the snake, Get away from me! Honey badger dont care. Honey badger smacks the shit out of it. And the snake comes back and it lashes at the honey badger.

Oh, little does the honey badger know, FYI: its been stung! Its been bitten by the snake, so while its eating the snake -- ew, thats disgusting -- all the poisonous venom is seeping through the honey badgers body, and it passes out. Look at that sleepy fuck. Now the honey badger is going to pass out for a few minutes, and then its going to get right back up and start eating

all over again, because its a

hungry little bastard. Look at this! Like nothing happened! The honey badger gets right back up and continues eating the cobra.

How disgusting. And of course, what does the honey badger have to eat for the next two weeks? Cobra. The honey badger.
