

# Voices of Unbelief: Documents from Atheists and Agnostics (Voices of an Era)

This book spotlights individual expressions of atheist, agnostic, and secular humanist opinion—both public and private—to shed light on the phenomenon of religious disbelief throughout history and across cultures. Documents include book and diary excerpts, letters, blogs, and video and radio scripts, bringing historical settings and individual lives into focus. A chronology helps place the writings and writers in history and in relation to each other.
