

Dead Heat (Alpha and Omega)

The bestselling author of the Mercy Thompson series transports readers into the realm of werewolves Charles Cornick and Anna Latham with her latest Alpha and Omega novel. For once, mated werewolves Charles and Anna are not traveling because of Charles's role as his father's enforcer. This time, their trip to Arizona is purely personal. Or at least their visit starts out that way... Charles and Anna soon discover that a dangerous fae being is on the loose, replacing human children with simulacrum. The fae have started a cold war with humanity that's about to heat up and Charles and Anna are in the crossfire.
