

The Danish Notebook

Memoir. In THE DANISH NOTEBOOK, Michael Palmer sets out to connect the dots -- to discover which images and designs will appear when his reflections (on poetry, on collaboration, on work, on travel) and memories (of chance meetings, of conversations among friends, of books read and movies seen) are set down on paper. The result is part memoir, part correspondence, part travel diary, and part poetic essay. Moving from the streets of Paris and San Francisco to the top of a Hawaiian volcano, it reveals a rare, personal look at one of the most original and influential poets of our time.
