

Religious Liberation: Free Your Mind

In this book James Mahoney challenges the controlling nature of religion and how it often brings the mind and reasoning power of an individual under bondage. The progress of humanity has been hindered by religion with its attempt to hold a patent on truth. But truth can never be found unless a person is able to doubt, question, and investigate the revelations that are claimed to be true. Religion has kept mankind from continuing to evolve both worldly and spiritually with the fear that if one questions their faith in the teachings and leaders of their religion that their immortal soul will be in danger of eternal hell fire. This fear is one of the greatest enemies of the modern man who should be able to openly research and discover what is the most true and satisfactory knowledge of the physical world as well as the spiritual.
