

# Sciences Quagmire

Science is evidence based and not based on fear, greed, super salesmanship, coercion or brainwashing. Science and technology are about the proposition, that: 1) the universe is explainable in terms of defining the unchanging natural phenomena that make it up, 2) science through the evidence based scientific method can ultimately exactly define all of these unchanging natural phenomena, 3) the scientific method includes: experimentation, observation, record keeping, analyzing, inducing and imagining to generate hypotheses, theories and laws defining these unchanging phenomena and 4) technology can employ these natural phenomena, either defined by science or not yet defined by science to benefit mankind. The overwhelming evidence is that this concept of science and technology is successfully being carried out and all of the unchanging natural phenomena are being defined and can be utilized. And 2) Christianity and probably all religions are not evidence based and are based on fear, greed, super salesmanship, coercion and brainwashing. Christianity and probably all other religions are, in fact, totally false definitions of the natural phenomena making up the universe and have, for the most part, been totally refuted by the scientific method. Christianity, and probably all religion, is falsely believed because of extreme brainwashing techniques used on people from birth until death, the vigorous use of all the supersales and media

marketing techniques known to man, the fear of physical force or death at the hand of Christian tyrants, the fear of eternal damnation in an unverifiable hell in the unverifiable so called spiritual world, i.e., afterlife, and the greed for an unverifiable heaven in the so called spiritual world, i.e., afterlife. This first century mystic authoritarianism is wrong and may destroy America.
