

Secrets of Handwriting Analysis

No one is quite sure how or when the practice of handwriting analysis started. Since the times of the Ancient Romans it has been used to analyze personality traits, and in more recent times it has been used to include the analysis of relationships and career paths. *Secrets of Handwriting Analysis* offers a comprehensive introduction to the topic, showing you how to take a sample; how to measure size, width, and height; how to spot more complex characteristics, such as loops and tails; and how to use these to create an accurate and sensitive analysis. Read this book and discover all the surprising insights that graphology has to offer. How to employ handwriting analysis to analyze personality, career options, and relationships. The *Secrets of...* series offers a unique juxtaposition of theory and practice, providing clear, full explanations that demystify each subject and show you the best way to apply it. This book provides a thorough introduction to handwriting analysis, illustrated with many samples of handwriting, shows you how to use handwriting analysis to improve your career prospects and interpersonal relationships, and offers approximately 350 pictures that help clarify deep ideas.
